CHAPLAINCY STATEMENT OF SERVICE

This statement is available when requested in large print, Braille and audio formats.

INTRODUCTION

The Chaplaincy is positioned within the Student Services, but its remit and its work extends beyond it; for example, the Chaplaincy is available for staff as well as students and it gives advice concerning University policies which involve religion and beliefs.

MISSION

In its scope and aims, the Chaplaincy encompasses both religious and non-religious world-views. The Chaplaincy aims:

- to provide pastoral support to any member of the University, staff or student;
- to develop ways in which the spiritual development and well-being of students and staff of all faiths and none may be promoted;
- to advise the University on matters regarding religion and belief which affect its life and work, maintaining good practice in related equality and diversity matters;
- to promote the awareness of different religious and faith issues which impinge upon the teaching, learning and research of the University.
- to strengthen links between the University and faith groups within other local institutions and the local community.

WHAT WE OFFER

The Chaplaincy provides opportunities for spiritual and religious expression, development and nurture and opportunities to explore different world-views. Specifically, we provide

- a team of chaplains and pastoral assistants, most of whom are volunteers, covering different faiths and traditions;
- a chaplain or pastoral assistant who is available at set times;
- an on-call service to the Co-ordinating Chaplain outside office hours and in vacations;
- information about how to contact a key member of those faiths and traditions not covered by the chaplains or pastoral assistants;
- confidential pastoral support and consultation;
- opportunities for discussion and reflection about spirituality, beliefs, ethics and general personal development;
- meditations and worship which relate to the University context;
- up-to-date contact information about local spiritual resources and places of worship: bookshops, churches, mosques and temples;
- information about beliefs and customs of the major religions and world-views, focused especially upon how they affect people interacting in a university setting;
- informal support to religious student societies.
