Email setup for iPhone

Tested on an iPhone 5 running iOS7

Go to Settings then follow the steps below.

1. Settings
2. Accounts
3. Add Account
4. Email
5. Enter email address
6. Enter password
7. Server: webmail.bolton.ac.uk
   Domain: bolton.ac.uk
   Username: ahnh7wss
   Password: ********

If you see the following screen after selecting 'Next' at step 7, press the 'Accept' button.

Your emails will then be accessible from your iPhone

Crib Sheet No. 88
