

**Programme Specification**

**BSc (Hons) Counselling and Psychology**

<b>Awarding Institution:</b>	University of Bolton		
<b>Teaching Institution:</b>	University of Bolton		
<b>Division and/or Faculty/Institute:</b>	Faculty of Wellbeing and Social Sciences		
<b>Professional accreditation</b>	Professional body	Professional body URL	Status of graduates
	British Psychological Society	www.bps.org.uk	Graduate Basis for Chartered Membership (GBC)
<b>Final award(s):</b>	BSc (Hons)		
<b>Interim award(s)</b>	None		
<b>Exit or Fallback award(s)</b>	Cert HE in Psychological Studies Dip HE in Psychological Studies		
<b>Programme title(s)</b>	Counselling and Psychology		
<b>UCAS Code</b>	CB89		
<b>JACS Code</b>	C800		
<b>University Course Code(s)</b>	PSY0002 PSY5002		
<b>QAA Benchmark Statement(s)</b>	Psychology		
<b>Other internal and external reference points</b>	The curriculum is consistent with the British Psychological Society Programme Standards and the University of Bolton awards framework.		
<b>Language of study</b>	English		
<b>Mode of study and normal period of study</b>	3-years Full-time and 4.5-years Part-time		

**Admissions criteria**

300 UCAS tariff points from at least two, but preferably three A2 levels (or equivalent) in any subjects plus 5 subjects at GCSE including Mathematics and English (Grade C or above); Equivalent EU, Scottish or Irish qualifications; appropriate number and level of Edexcel / BTEC qualifications;

Kite marked Access Certificate (40 credits at merit or above).

Overseas students minimum IELTS 6.0 required.

Other cases dealt with by Admissions Tutor on an individual basis.

**Additional admissions matters**

None

**Fitness to practise declaration**

Not applicable

**Aims of the programme**

The principal aims of the programme are:

- i. To develop an appreciation of the diversity of perspectives in modern counselling and psychology;
- ii. To acquire a critical understanding of counselling and psychological theories, methods and debates;
- iii. To encourage the acquisition of research methods skills and a capacity to apply such skills to specific research problems in counselling and psychology, in the context of an appropriate awareness of relevant ethical issues;
- iv. To develop an understanding of a range of applications of counselling psychology;
- v. To acquire key transferable skills in the areas of numeracy, communication, information technology and group work;
- vi. The acquisition of subject specific vocational skills (e.g. counselling)
- vii. To encourage the ability to engage in independent learning.

**Distinctive features of the programme**

Opportunities for: the Graduate Basis for Chartered Membership (GBC) of the British Psychological Society; self-negotiated career development and work-based learning. The learning environment is characterised by: supportive and approachable staff with a diverse range of research interests; use of innovative methods of teaching and assessment; dedicated laboratory facilities; opportunities to study abroad.

## **Programme learning outcomes**

To gain the qualification the learner will have demonstrated: i) subject knowledge and understanding ii) cognitive skills iii) discipline-related practical and professional skills and iv) other general skills and capabilities (e.g. key/transferable/common) as specified in the learning objectives/outcomes for approved modules in the programme. Further details of module outcomes can be found in the programme document.

### **K. Knowledge and understanding**

On completion of the programme successful students will be able to demonstrate systematic knowledge and understanding of

1. the scientific orientation central to the discipline and alternatives to it;
2. key theories, conceptual frameworks, and debates central to the discipline;
3. the range of empirical methods used to study human behaviour and awareness of any limitations associated with their use;
4. a range of applications of psychological theory in contemporary society;
5. the boundaries of psychology and the discipline's relationship with other cognate disciplines;
6. a defined body of psychological knowledge informed by current research, and appreciation of the limits of that knowledge.

### **C. Cognitive, intellectual or thinking skills**

On completion of the programme successful students will be able to demonstrate the capacity:

1. for critical analysis and ability to develop an argument;
2. to employ evidence based reasoning to make informed judgements;
3. for creative thinking;
4. to understand data sets and identify relationships;
5. to generate and explore research questions in a systematic way;
6. for independent learning and problem solving;
7. to apply and integrate findings across multiple perspectives.

<p><b>P. Practical, professional or subject-specific skills</b> On completion of the programme successful students will be able to demonstrate:</p>
1. competence to carry out empirical studies involving a variety of methods of data collection;
2. competence in analysing data using quantitative and qualitative research methods and interpreting the results of the analysis;
3. competence to carry out a systematic search, review and evaluation of psychological research findings (including electronic sources of information);
4. ability to apply critical analysis and evidence based reasoning to current research to identify a focus for further development;
5. competence to design and execute an original, independent piece of research having due regard for ethical issues;
6. competence to report research in an appropriate format;
7. psychological awareness and understanding applicable to a range of situations and careers that can be used to enhance human experience.
<p><b>T. Transferable, key or personal skills</b> On completion of the programme successful students will be able to demonstrate:</p>
1. the ability to communicate effectively orally and in writing;
2. the ability to problem solve and reason systematically;
3. numerical and quantitative skills appropriate to carrying out independent research;
4. the ability for competent use of information technology;
5. the ability for self-management including time-management and willingness to take responsibility for thoughts and actions;
6. the ability for independent learning and critical self-reflection as a basis for personal development and life-long learning;
7. the ability to engage in supportive peer collaboration and constructive criticism;
8. the ability to evaluate strengths and weaknesses and intervene appropriately;
9. the ability to reflect upon academic and personal development;
10. the ability to evaluate progress and performance in relation to long term academic and career progression.

**Programme structure**

The modular degree is organised on 2 trimesters per year basis.

Single Honours (360 credits in Psychology) requires Part 1 (120 credits) - 6 HE4 20 credit modules and Part 2 (240 credits) - 6 HE5 and 6 HE6 20 credit modules.

The core modules that are required for Graduate Basis for Chartered Membership (GBC) of the BPS include both of the HE5 Research Methods modules, Personality & Developmental Psychology, Cognitive Psychology, Biopsychology, Social and Critical Psychology, and the Honours Project. Students are required to achieve a degree classification of a 2:2 or better for GBC.

<b>Module Code</b>	<b>Module title</b>	<b>Core/ Option / Elective (C/O/E)</b>	<b>20</b>	<b>Length (1, 2 or 3 periods)</b>

PSC6007	Children's Learning and Development	O	20	1
PSC6010	Assessing Personality	O	20	1

## Learning and teaching strategies

The overall teaching and learning strategy for Psychology is 'student centred'. A variety of teaching and learning methods are employed in order to ensure the acquisition and development of appropriate concepts, knowledge and skills and to achieve the stated learning outcomes. Active learning is promoted via: practical classes; laboratory workshops; seminars; tutorials; self-directed study; lectures; video viewing and analysis; IT sessions; guided study and fieldwork.

In addition, each module will have a one-hour session per week where a member of staff will be available to answer any questions and give guidance relating to that specific module.

## Learning activities (KIS entry)

	Course Year						
	1	2	3	4	5	6	7
Scheduled learning and teaching activities	31	26	18				
Guided independent study	69	74	77				
Placement/study abroad	0	0	5				

## Assessment strategy

The primary function of the proposed assessment strategy is to help students organise and develop their learning and to evaluate their achievement of the stated learning outcomes. As a result, assessment tasks are linked to the learning outcomes of each module and are completed at selected points within the module (chosen to facilitate student learning via feedback on the tasks).

Many different forms of module assessment are employed in Psychology i.e.; time-limited examinations (seen or unseen), essays, practical reports, statistical assignments, seminar presentations, portfolios, poster presentations, in-class assessments of various types and project.

The approach to formative assessment is as an aid to learning and is designed to provide the student with feedback concerning their progress. It also allows the students to develop their skills and understanding of their strengths and weaknesses concerning the module content. Formative assessment however, does not contribute to the overall formal assessment for the unit.

## Assessment methods (KIS entry)

	Course Year						
	1	2	3	4	5	6	7
Written exams	10	40	10				
Coursework	90	60	70				
Practical exams	0	0	20				

\*Figures for year 3 may differ depending on option modules chosen

---

## Assessment regulations

- Assessment Regulations for Undergraduate Modular Programmes

### Grade bands and classifications

#### 1. Undergraduate Honours Degrees

Grade Description	Mark %	Honours Degree Classification
Work of exceptional quality	70+	i
Work of very good quality	60-69	ii.i
Work of good quality	50-59	ii.ii
Work of satisfactory quality	40-49	iii
Borderline fail	35-39	
Fail	Below 35	

#### Honours classification

You will normally be awarded the honours classification resulting from the application of either Rule ACM20 or Rule ACM6.

##### Rule ACM20

A weighted average of the marks from modules worth a total of 200 credits at Levels HE5 and HE6 combined, including the marks from modules worth no more than 80 credits at least at Level HE5 (weighted 30 percent) and marks from modules worth at least 120 credits at Level HE6 (weighted 70 percent), which represent the best marks achieved by you at those Levels.

Where the average falls unequivocally into one of the following bands: 48.00 - 49.99, 58.00 - 59.99, 68.00 - 69.99; and you have achieved marks clearly in an honours classification category higher than their average for modules worth at least 110 credits, then you will be awarded an honours degree in the classification category one higher than that indicated by your average.

Rule ACM6 (an alternative if you do not have sufficient marks at Levels HE5 and 6 to apply ACM20)

A simple average of the equally weighted marks from modules worth 120 credits at Level HE6 which represent the best marks achieved by you at that Level.

Where the average falls unequivocally into one of the following bands: 48.00 – 49.99, 58.00 – 59.99, 68.00 – 69.99; and you have achieved marks clearly in an honours classification category higher than their average for modules worth at least 70 credits, then you will be awarded an honours degree in the classification category one higher than that indicated by their average.

Where you have marks available for fewer than 120 credits at Level HE6, honours classification shall normally be based **solely** on a simple average of the available marks for modules at Level HE6, subject to there being marks for a **minimum of 60 credits awarded by the University. Upgrading of the honours classification will not normally be available where there are marks available for fewer than 120 credits at Level HE6**, unless this is explicitly approved.

### **Role of external examiners**

External examiners are appointed for all programmes of study. They oversee the assessment process and their duties include: approving assessment tasks, reviewing assessment marks, attending assessment boards and reporting to the University on the assessment process.

### **Support for student learning**

- The programme is managed by a programme leader
- Induction programme introduces the student to the University and their programme
- Each student has a personal tutor, responsible for support and guidance
- Personal Development Planning (PDP) integrated into all programmes
- Feedback on formative and summative assessments
- A Student Centre providing a one-stop shop for information and advice
- University support services include housing, counselling, financial advice, careers and a disability
- A Chaplaincy
- Library and IT services
- Student Liaison Officers attached to each Faculty
- The Students' Union advice services
- Faculty and Programme Handbooks which provide information about the programme and University regulations
- The opportunity to develop skills for employment
- English language support for International students
- Specialist teaching facilities/resources
- Support for placement learning including mentors

## **Methods for evaluating and enhancing the quality of learning opportunities**

- Programme committees with student representation
- Module evaluations by students
- Students surveys, e.g. National Student Survey (NSS),
- Annual quality monitoring and action planning through Programme Quality Enhancement Plans (PQEPs), Data Analysis Report (DARs) Subject Annual Self Evaluation Report (SASERs), Faculty Quality Enhancement Plans (FQEPs), University Quality Enhancement Plan (UQEP)
- Peer review/observation of teaching
- Professional development programme for staff
- External examiner reports
- Professional body visits and reports
