Learning and teaching strategies

Our strategy has been developed in order to engage and motivate you throughout the course so that you achieve your ambitions. We do this by monitoring the success of all students and consulting with and responding to you through the many forms of feedback that you provide in various surveys and student representation on committees.

We maintain our excellent links with employers and ensure that your 'world of work' is represented and highlighted throughout your studies. You will experience Inter disciplinary learning throughout the course which will enhance your ability to work effectively and collaboratively in the Early Years sector.

Technology is used on the course to enhance all aspects of teaching and learning.

Moodle is the current VLE (Virtual Learning Environment) deployed by the University and is developed to enhance your learning opportunities. We appreciate that time is precious for our students and we are constantly exploring, implementing and evaluating flexible delivery of aspects of the course.

As a student on the course we aim to ensure that you are appropriately challenged to achieve your full potential and success. Should you have additional learning needs, our experienced academic team are there to provide support and guidance.

The academic team are all appropriately qualified and vocationally qualified; the University is committed to ensure that the continuing professional development is maintained to support your learning.

Assessment strategy

Our assessment strategy has been designed to enable you to achieve your full potential whilst studying with us. In each module you study, you will be clear about when and how you will submit work for assessment. The criteria against which your work will be marked will be included in your module handbook. You will also be aware when and how the assessment feedback will be available to you (normally within four weeks) and the form that the feedback will take. You will be provided with feedback on each piece of assessment, formative assessment is provided in each module to enable you to gauge your performance and improve. The formative assessment will contribute to the final summative assessment for the module. The programme team will provide personalised feedback that is clear and easy to understand, should you require clarification, this opportunity is made available through tutorial. The feedback you receive will inform you how you can improve your grades, the 'next steps' you can take.

The Programme is conducted in accordance with the University's Under Graduate Modular framework regulations. Important information on assessment regulations and other information on assessment (including marking criteria and definitions of grade descriptions) are contained in the Assessment Regulations for the Undergraduate Modular Framework documents via <http://www.bolton.ac.uk/Students/PoliciesProceduresRegulations/StudentsOnTaughtCourses/ExamRegulationsAndProcedures/AssandExam.aspx>

Please ensure that you read and understand this information. It will be assumed that you are familiar with the Assessment Regulations for the Undergraduate Modular Framework.
