

**Programme Specification(s)**

**HND Games Design**

<b>Awarding Institution:</b>	University of Bolton		
<b>Teaching Institution:</b>	University of Bolton		
<b>Division and/or Faculty/Institute:</b>	Faculty of Arts and Media Technologies		
<b>Professional accreditation</b>	Professional body	Professional body URL	Status of graduates
<b>Final award(s):</b>	N/a HND	N/a	N/a
<b>Interim award(s)</b>	N/A		
<b>Exit or Fallback award</b>	Certificate of Higher Education in Games Design		
<b>Programme title</b>	Games Design		
<b>UCAS Code</b>	24WG		
<b>JACS Code</b>	I620		
<b>University Course Code(s)</b>	Full-time – GAM0004 Part-time – GAM5003		
<b>QAA Benchmark Statement(s)</b>	Computing		

**Other internal and external reference points**

QAA Academic Infrastructure, including the Framework for Higher Education Qualifications and the Code of Practice

UK Quality Code for Higher Education

University of Bolton awards framework

**Language of study**

English

**Mode of study and normal period of study**

Full time – 2 years

Part time – 3 years

**Admissions criteria**

You should have a minimum of one GCE A2-level pass (or equivalent), including and five GCSEs at grade C or above (or equivalent), including English and Maths

If English is not your first language you will need to complete a Secure English Language Test at IELTS 6.0 or equivalent.

Students without the required entry qualifications can be considered for interview. A portfolio of work may be required at the interview, if this is deemed a reasonable substitute for the qualifications, an offer can be made.

Interviews will be conducted on a one to one basis by a member of the course team. Applicants may be required to bring a portfolio to the interview and will be expected to answer a variety of questions designed to assess their suitability for the course.

**Aims of the programme**

The principal aims of the programme are:

- To provide you with a broad education in computer game design, development and technology, with a special emphasis on the technical aspects of game production.
- To equip you with the skills (especially design) and knowledge necessary to pursue a successful career in industries specialising in the creation and distribution of leisure and entertainment computing technologies.
- To use Games Design methods and techniques as a vehicle for introducing the theoretical, intellectual, creative and dynamic aspects of computing.
- To promote innovation and creativity assisted by rapid technological change.

The themes of the programme are as follows: (i) Content Production, (ii) Platforms and Technologies, (iii) Games Production, (iv) Games Analysis and Games Design, (v) Usability and Playability, (vi) Sales and Marketing, (vii) Social and Cultural context

## **Distinctive features of the programme**

- Assignments and projects based on industry pipelines and standards
- State of the art games labs featuring high end computers and industry standard software
- Opportunities for studio visits, field trips, work experience with relevant studios, for example games usability testing with companies at the University.
- HND students are provided with additional support in their studies.
- Games students at the University of Bolton benefit from the presence of other disciplines within our group of courses such as Games Art and Games Programming.
- All three groups are taught together for certain modules throughout their studies at the university.
- Design students in particular benefit from the potential to utilise art student skills in their artefact production.

## **Programme learning outcomes**

### **K. Knowledge and understanding**

On completion of the programme successful students will be able to demonstrate systematic knowledge and understanding of:

1. Appropriate evaluation strategies for games
2. The software technology involved in designing games content
3. Formulating, specifying and presenting original game-play concepts and mechanics
4. The pipelines involved in the production of games
5. The business context in which the games industry is situated
- 6.

### **C. Cognitive, intellectual or thinking skills**

On completion of the programme successful students will be able to demonstrate the ability to:

1. Critique, analyze and review documents and assets relating to games design
2. Deconstruct and critique game-play constructs, narratives and mechanisms.
3. Show an appreciation of the social and cultural context of games
4. Demonstrate creativity in the production of resources for games
5. Use Games Design methods and techniques as a vehicle for learning the theoretical, intellectual, creative and dynamic aspects of computing.

### **P. Practical, professional or subject-specific skills**

On completion of the programme successful students will be able to demonstrate the ability to

1. Write and present games design documents
2. Use scripting based environments
3. Design levels for various genres
4. Demonstrate understanding of games design theory
5. Use 3D software relevant to games
6. Create narratives in relation to video games

### **T. Transferable, key or personal skills**

On completion of the programme successful students will be able to demonstrate the ability to:

1. Communicate orally, visually and in written documentation
2. Work in a studio based environment demonstrating reflective practice.
3. Apply logical analysis to problem solving
4. Apply project management skills
5. Formulate appropriate and ethical testing and research strategies

### **Programme structure**

There are 2 levels (HE4, HE5). Each level has 120 credits and takes place over two trimesters, a fulltime student would normally complete 60 credits per trimester and a part time student not more than 40. All modules on the course are core and therefore must be successfully completed. The credit value of modules is 20.

<b>Module Code</b>	<b>Module title</b>	<b>Core/ Option/ Elective (C/O/E)</b>	<b>Credits</b>	<b>Length (1, 2 or 3 periods)</b>
GAM4004	Introduction to 3D CG	C	20	1
GAM4001	Introduction to Level Design	C	20	1
GAM4002	Mechanics and Metrics	C	20	1
GAD4000	Sound for Games	C	20	1
GAM4000	Scholarship	C	20	1
GAM4003	Introduction to Games Programming	C	20	1
GAM5000	Employability and Enterprise	C	20	1
GAD5000	Intermediate Games Scripting	C	20	1

Programme specification: Games Design HND

Date: July 2012

GAD5001	Games Narratives	C	20	1
GAM5001	Project Portfolio	C	20	1
GAM5002	Advanced Level Design	C	20	1
GAD5002	Intermediate 3D for Games	C	20	1

### Learning and teaching strategies

A mixture of learning and teaching methods is used, including lectures, demonstrations, practical lab sessions, critique sessions (peer and assessed) and reflective learning through journals and logs for various activities. Group work will be an important aspect of the course.

### Learning activities (KIS entry)

	Course Year	
	1	2
Scheduled learning and teaching activities	33%	37%
Guided independent study	67%	63%
Placement/study abroad	0%	0%

### Assessment strategy

Assessment tasks are linked to the learning outcomes of each module and are normally completed by the end of each module. Types of assessment include: Written examinations (unseen or open-book), written reports, assignments, projects, case study analyses, in-class tests (practical, written or online), demonstrations and presentations. Feedback is continuous, with formative critique sessions and over-the-shoulder verbal feedback as classes progress. Students will also receive formal written feedback in response to their assignment submissions.

### Assessment methods (KIS entry)

	Course Year	
	1	2
Written exams	0%	0%
Coursework	94%	100%
Practical exams	6%	0%

## Assessment regulations

- Assessment Regulations for Undergraduate Modular Programmes

## Grade bands and classifications

### Grade Bands

Grade Description	Mark %	Module and Overall Grade
Work of exceptional quality	70+	Distinction
Work of very good quality	60-69	Merit
Work of good quality	50-59	Pass
Work of satisfactory quality	40-49	Pass
Borderline fail	35-39	
Fail	Below 35	

### Grading

The award of HND with Distinction may be made where your overall average mark is at least 70%, normally calculated from modules at Level HE5.

The award of HND with Merit may be made where your overall average mark falls between 60 – 69.99 normally calculated from modules worth at Level HE5.

### Role of external examiners

External examiners are appointed for all programmes of study. They oversee the assessment process and their duties include: approving assessment tasks, reviewing assessment marks, attending assessment boards and reporting to the University on the assessment process.

### Support for student learning

- The programme is managed by a programme leader
- Induction programme introduces the student to the University and their programme
- Each student has a personal tutor, responsible for support and guidance
- Personal Development Planning (PDP) integrated into all programmes
- Feedback on formative and summative assessments
- A Student Centre providing a one-stop shop for information and advice
- University support services include housing, counselling, financial advice, careers and a disability
- A Chaplaincy

- Library and IT services
- Student Liaison Officers attached to each Faculty
- The Students' Union advice services
- Faculty and Programme Handbooks which provide information about the programme and University regulations
- The opportunity to develop skills for employment
- English language support for International students
- Specialist teaching facilities featuring high end computers and graphics hardware such as graphics tablets
- Access and use of virtual learning environments for each module

### **Methods for evaluating and enhancing the quality of learning opportunities**

- Programme committees with student representation
- Module evaluations by students
- Students surveys, e.g. National Student Survey (NSS)
- Annual quality monitoring and action planning through Programme Quality Enhancement Plans (PQEPs), Data Analysis Report (DARs) Subject Annual Self Evaluation Report (SASERs), Faculty Quality Enhancement Plans (FQEPs), University Quality Enhancement Plan (UQEP)
- Peer review/observation of teaching
- Professional development programme for staff
- External examiner reports
- Utilising industry contacts to review course material
