An application form, job description and person specification can be viewed on our website: <https://www.bolton.ac.uk/staff-area/professional-services/about-hr/vacancies/> or requested by email: jobs@bolton.ac.uk.

Applicants need to be aware that only a completed application form will be considered, unless it is specifically indicated in an advertisement that a CV will be accepted. Where appropriate, you should include a list of all publications when submitting your application. Please ensure you quote the position reference number on all documentation submitted.

Candidates must be eligible to work in the UK, for more information please visit <https://www.gov.uk/check-uk-visa>.

No agencies.

*Please note, the university reserves the right to shorten/extend the closing date of any position where a high/low volume of applications are received.

Due to the successful and continued expansion of the centre, the Faculty of Health and Wellbeing are looking to recruit a number of Lecturers in PA Practice / Working in Medicine as well as Advanced Clinical Practice.

We have a strong reputation and expertise in developing Advanced Practitioners within the North-West, and our Advanced Clinical Practice programmes are accredited by Health Education England.

We are looking for clinicians to join our teaching team to contribute and teach on our clinical focused post graduate programmes. In addition to academic teaching responsibilities, the appointee will work closely with clinical colleagues in local NHS Trusts and organisations to support students during clinical learning experiences.

The appointee will also contribute to student recruitment and interview processes.

A first degree and post-graduate qualification in a relevant area is essential. You should have strong clinical knowledge, healthcare experience and an understanding of advanced practice roles. HCPC/NMC or equivalent registration is desirable for this role along with a teaching qualification (or a willingness to obtain is essential where the candidate does not hold the qualification).

The successful candidate should demonstrate a strong understanding of current changes in health care practice and evolving developments in clinical practice, and have the ability to create and maintain a range of links between academic courses and health care providers.

We welcome applications looking for full-time and part-time hours or hourly paid lecturers together with permanent or fixed term contracts.
