

## Psychology Teaching and Learning Technician

**Department:**

School of Education and Psychology  
Ref: EDP-146/P

**Salary:**

Salary in the range of £26,396 to  
£31,412 per annum

**\*Closing date for applications:**

**12:00 noon on Monday 9 January  
2023**

Interviews are expected to take  
place during within 4 weeks of the  
closing date.

An application form, job description and person  
specification can be viewed on our website:  
[https://www.bolton.ac.uk/staff-area/professional-  
services/about-hr/vacancies](https://www.bolton.ac.uk/staff-area/professional-services/about-hr/vacancies) or requested by  
email: [jobs@bolton.ac.uk](mailto:jobs@bolton.ac.uk).

Applicants need to be aware that only a  
completed application form will be considered,  
unless it is specifically indicated in an  
advertisement that a CV will be accepted. Where  
appropriate, you should include a list of all  
publications when submitting your application.  
Please ensure you quote the position reference  
number on all applications submitted.

If an applicant is interested in more than one  
vacancy, a separate application must be  
submitted for each vacancy to ensure that the  
individual role requirements are addressed.

Candidates must be eligible to work in the UK, for  
more information please visit  
<https://www.gov.uk/check-uk-visa>. No agencies.

\*Please note, the University reserves the right to  
shorten/extend the closing date of any position  
where a high/low volume of applications are  
received.

### Are you interested in joining the number one University in Greater Manchester for student satisfaction?

Here at the University of Bolton, we are proud of our  
growing reputation as a student focussed University.  
With our strategy of “Teaching Intensive, Research  
Informed” we are committed to offering our students  
the best experience possible. Due to our ongoing  
growth, we are now looking for a Psychology  
Teaching and Learning Technician to join our  
Psychology team.

On a day-to-day basis, you will be involved in  
supporting both staff and students, through your  
technical input, especially in relation to student  
research projects. Here you may be required to set  
up specialist experimental equipment such as EEG or  
eye tracking facilities. You will also play an important  
role in relation to teaching, learning and research  
development; scoping new technologies and  
considering novel application of existing technologies,  
to further enhance the student experience. You will  
be well placed to support academic staff across the  
team in their teaching and research and contribute to  
showcasing the work of the department at both  
internal and external events.

We ask a lot from our staff but in return, you will  
receive a competitive benefits package including  
access to the Local Government Pension Scheme, an  
employee benefits scheme and generous annual leave  
entitlement. As a small University, you will have  
opportunities to work with colleagues across campus to  
support and deliver the best student experience  
possible.
