An application form, job description and person specification can be viewed on our website: <https://www.bolton.ac.uk/staff-area/professional-services/about-hr/vacancies> or requested by email: jobs@bolton.ac.uk.

Applicants need to be aware that only a completed application form will be considered, unless it is specifically indicated in an advertisement that a CV will be accepted. Where appropriate, you should include a list of all publications when submitting your application. Please ensure you quote the position reference number on all applications submitted.

If an applicant is interested in more than one vacancy, a separate application must be submitted for each vacancy to ensure that the individual role requirements are addressed.

Candidates must be eligible to work in the UK, for more information please visit <https://www.gov.uk/check-uk-visa>. No agencies.

The University of Bolton is a “Teaching Intensive, Research Informed” higher education institution whose distinctive high quality, student-focussed, undergraduate and postgraduate programmes attract students from all over the world.

Our staff are at the heart of everything we do: they are highly qualified and experienced in their fields, supporting their teaching practice by carrying out quality research and engaging in continuous professional development. Staff pride themselves on being outstanding professionals that provide excellent learning, teaching and applied research and support in the provision of custom-designed, industry led courses in numerous subject areas.

We have an exciting opportunity within our Civil Engineering and Construction team at the University of Bolton, for a Lecturer/Senior Lecturer in Geospatial and Digital Engineering. As a Lecturer / Senior Lecturer in Geospatial and Digital Engineering., you will play a pivotal role in the success of our students through:

- Teaching on taught undergraduate and postgraduate programmes across the Civil Engineering and Construction Portfolio, and contributing to the management of these programmes wherever possible.
- Planning and preparing teaching and learning programmes for individuals and groups of learners
- Developing practical interactions between students and employers that will lead to students having full understanding of Geospatial and Digital Engineering processes
- Liaising with employers on apprenticeship programmes

Our ideal candidates will have experience of working in the Geospatial and Digital Engineering profession and a track record or desire to support research in this subject area. Degree and postgraduate qualifications are relevant but industrial experience and an interest to further study at the university alongside your role can be accommodated. Other core skills are:

- A proven ability to innovate and develop solutions.
- Excellent written and verbal communication skills.
- Passion and motivation by your specialist area.
- Proven ability to prepare high quality outputs.
- Previous experience of teaching, research and academia is an advantage but not essential. Full training will be provided.
