Faculty of Health & Wellbeing

With around 170 staff and 3600 students, The Faculty of Health and Wellbeing is the largest faculty at The University of Bolton.

We deliver a range of excellent undergraduate, postgraduate and Continuing Professional Development (CPD) courses and we have a strong Teaching Intensive Research Informed agenda. Our Faculty and its staff are committed to providing you with a learning environment that has been specifically designed with the aim of engaging, informing and exciting students, and setting you on a journey of life-changing learning and exploration.

As a faculty, we share a passion for caring about individuals and families, as part of a wider system of joined up health and wellbeing; caring and compassion, holistic and spiritual care for all people and solving the challenges associated with building more resilient communities.

Our learning through exploration approach brings your subject to life. You will use our excellent modern facilities and state-of-the-art equipment to simulate scenarios, whilst putting theory into real-world situations.

Drawing on the expertise and experience of our staff, you will have practical advice and guidance on pursuing the career of your choice after graduation.

By being part of our Faculty, you can expect to be offered a range of opportunities, connections with health care organisations, listen to the real experiences of service users and carers, and secure practical work experience opportunities. The following pages provide you with an overview of what our Faculty has to offer. I hope that you are able to join us on our exciting adventure.

School of Nursing & Midwifery

Nursing (Adult)

Together with our partner NHS Trusts, we will prepare you to become a confident professional nurse, who will be able to deliver and lead adult care in an ever changing health and social care environment. On successful completion of the nursing qualification you'll possess the knowledge and skills you need to perform as an independent, highly competent, compassionate nurse who can be trusted to maintain professional standards and assure the protection of the public.

- You'll be able to practice skills and develop your knowledge in our state-of-the-art Clinical Simulation Suites in our flagship £31 million Bolton One building
- We are 3rd in the UK for student satisfaction
- 98% of our students go on to employment or further study after completing their course
- You'll spend 50% of your time in practice placements at our NHS partner trusts

Nursing (Child)

The University of Bolton's Nursing (Children) degree, offered in partnership with Bolton NHS Foundation Trust, is designed to prepare you for a successful career caring for people under the age of 18. Also known as a paediatric nurse, a children's nurse is a key member of a multidisciplinary team of professional and medical staff that includes doctors, health visitors, healthcare assistants, hospital play staff, social workers and psychologists.

- You'll gain first-hand work experience and have the opportunity to develop an invaluable network of professional contacts during your extensive time (50%) gaining practice learning experience at Bolton NHS Foundation Trust.
- After successful completion and gaining the nursing qualification you'll be given the opportunity to apply for a Band 5 Nursing post with Bolton NHS Foundation Trust.
- The course is approved by the Nursing and Midwifery Council (NMC) and on successful completion you'll be eligible to register as a qualified nurse.
- You'll be able to practice skills and develop your knowledge in our state-of-the-art Clinical Simulation Suites in our flagship £31 million Bolton One building

Trainee Nurse Associate (TNA)

Our Level 5 FdSc Nursing Associate programme allows you to develop the skills and knowledge to become an effective and essential part of the nursing team, contributing to excellent nursing care. This programme is offered via both a High Apprenticeship and independent route.

- This programme is approved by the Nursing and Midwifery Council (NMC) and on successful completion, you'll be eligible to register as a qualified nursing associate.
- You'll be guided by staff with extensive experience in nursing, healthcare and inter-professional education.
- You'll be able to practice skills and develop your knowledge in our state-of-the-art Clinical Simulation Suites in our flagship £31 million Bolton One building
- Our focus is on helping you learn to deliver nursing care safely, in areas such as administering medication within the scope of the nursing associate, using medical devices, using invasive and non-invasive procedures, and infection prevention and control.

Fast-Track to Nursing

If you don't have the required entry qualifications for one of our Adult Nursing degrees, but can show that with some expert coaching and tuition you could succeed at degree level, why not consider our Fast-track to HE (Nursing) course.

- We'll support you to acquire and develop essential skills, helping to prepare you for both academic study and future employment.
- Our approach to teaching and learning is 'student-centred', so we'll work with you on an individual basis, providing tailored help and support throughout your studies.
- The Fast Track to Nursing programme has two modes of delivery part-time (one day over 18 weeks) or full time, (two days over nine weeks)
- Successful completion of the course will normally lead directly to an approved BSc Nursing programme at the University of Bolton.

Midwifery

Midwives provide care and support to women and their families throughout pregnancy, during labour and for a short period after the baby's birth. Offered in partnership with our NHS Partner Trusts, the University of Bolton's NMC-approved pre-registration BSc (Hons) Midwifery degree aims to give you the experience and skills to join this demanding yet rewarding career.

- Our partner trusts offer practice learning experience in a range of settings, such as home births, alongside midwifery-led birth suites and stand-alone birth centres, providing continuity of care and caseload opportunities.
- The course is approved by the Nursing and Midwifery Council (NMC) and on successful completion, you'll be eligible to register as a qualified midwife.
- You'll gain first-hand work experience and have the opportunity to develop an invaluable network of professional contacts during your extensive time (50%) on clinical practice placements, at one of our partner NHS Trusts or NHS-accredited midwifery services.
- You'll be able to practice skills and develop your knowledge in our state-of-the-art Clinical Simulation Suites in our flagship £31 million Bolton One building

Dental Technology

Dental technology is one of the most popular and lucrative areas of dentistry where dental technicians design and construct dental appliances to improve people's teeth. With the increasing patient demand, the need for educated and skilled dental technicians has never been greater.

By studying one of our General Dental Council (GDC) approved dental technology degrees at our £4.8 million Centre for Dental Sciences at the University of Bolton, you will have the competitive edge required to excel in this field. Our programmes lead to professional registration as a dental care professional.

- As a dental technology undergraduate, you'll have access to the latest specialist equipment in our advanced laboratories and have the chance to participate in regular hands-on sessions to help develop your practical capabilities.
- You'll be able to practice skills and develop your knowledge in our state-of-the-art laboratories at our Centre for Dental Sciences

Social Work

Social work is a varied and rewarding profession centred on people. It offers careers working with children, young people and adults, supporting families, care leavers and older people, as well as those with mental health issues, learning difficulties or physical disabilities. As a social worker, you'll work in multidisciplinary environments alongside professionals from other agencies, such as housing services, the police and health and social care teams, to empower individuals, families and communities within society.

- We'll help you develop an awareness and appreciation for differing cultural values and behaviours, the factors that influence our journeys from pre-birth through to death, and the effects of age, sexuality, gender identity and expression, capacity, learning ability and physical ability.
- Our programme offers 200 days of practice-based learning opportunities. We'll arrange two work placements for you totalling 170 days, and you'll benefit from an additional 30 skills development days that take place on campus.
- Our professional expert academic tutors come from a wide range of professional and academic backgrounds, including social work and a number of allied health and social care professions.
- You'll have access to our living room/home visits simulation learning spaces and Clinical Simulation Suites

Early Years & Childhood Studies

We believe that making the link between your course content and real life situations is crucial to your understanding of early childhood studies. Our BA (Hons) Early Years and Childhood Studies degree is a great qualification if you are looking for a career working with pre-primary school children and need to develop the necessary work experience, or if you are already working in the early years' sector and would like the chance to obtain a formal qualification to support your career development.

- Our Childhood and Youth Studies courses are top in the UK for student satisfaction, according to The Complete University Guide 2022.
- We have strong partnership links with local employers in the sector meaning there are excellent opportunities for you to undertake work placements
- The course covers leadership and management in early years, aimed at preparing you for additional responsibilities such as team leading or management roles
- You'll establish a strong foundation in both academic and vocational studies, which will enable you to transfer knowledge gained into the ever-changing early years work environment

Medical Biology

Medical biology is a huge and vital topic. Understanding how the human body works, and the need to continuously develop and improve ways to diagnose and treat disease, is integral to improving the length and quality of our lives. Throughout the University of Bolton's BSc (Hons) Medical Biology degree, our expert team will support you to build your understanding of its key principles, concepts and applications. As well as exploring the human biology aspects of medical biology, we'll consider key principles and advancements relating to the medical technology, biotechnology and pharmaceutical job markets.

CHOOSING THE UNIVERSITY OF BOLTON HAS BEEN ONE OF THE BEST DECISIONS I'VE EVER MADE. I LOVE STUDYING AT THE UNIVERSITY BECAUSE I AM SEEN AS A PERSON, NOT AS A NUMBER.

Laura Hodgeson
BSc (Hons) Medical Biology

- This highly practical course focuses on developing your practical skills, and knowledge of research methods, by giving you experience of using equipment in our high-spec instrumentation laboratory.
- Accredited by the Royal Society of Biology
- You'll explore the causes of disease and the methods and technologies used to treat and diagnose disease.
- The programme has been designed to develop skills that will be of value for those students wishing to apply for graduate entry medicine
- The content of the programme has been devised following consultation with a number of employers, including companies in the biotechnology and pharmaceutical industries, along with the NHS

Come & Explore

Open Days/Access All Areas

These provide a great opportunity to discover more about life at the University of Bolton and how we can help your career ambitions. You'll get to speak to our passionate lecturers, and hear first-hand from our students about the wonderful courses we offer. Tours of the modern facilities as well as the halls of residence, make up the day. At the end of your visit, you will have a better understanding of why we are the right university for you.
