agencies.

The University of Bolton is a “Teaching Intensive,
Research Informed” higher education institution whose
distinctive high quality, student-focussed, undergraduate
and postgraduate programmes attract students from all
over the world.

An exciting opportunity has arisen in the Centre of Film
FX at the University of Bolton for a talented and innovative
Lecturer in Special Effects Modelmaking due to the
growth and development of the portfolio of programmes
within the subject group.

The key duties of the role-holder will be to contribute to
the delivery, development, research and administrative
support of computing associated programmes across the
Academic Group/School, which will include the academic
and personal support of students.

Although a first degree/higher qualification in a related
subject is essential, the University is particularly
interested in candidates with a strong
professional/industry background in the field of Special
Effects in Modelmaking and a willingness to achieve a
teaching qualification/HEA accreditation within dedicated
timescales.

There are a number of different professional valued
skillsets across the field of MMFX Candidates ideally
would be able to demonstrate high level professional skills
in one or more of the following areas.

- Moulding and casting techniques
- Resistant material manipulation and machining
- Painting and surface finishes

In addition, it is desirable to have a good
understanding/awareness of structures, mechanisms and
electrical/electronic systems.
